

Deep Energy

Extreme Energy Efficiency In New and Existing Homes

Friday, January 23, 2009
2:30—5pm

Location:

Cleveland Environmental Center
Lower Level Conference Room
3500 Lorain Avenue
Cleveland, OH 44113

The technology is available today to create net zero energy new homes and to retrofit existing homes to achieve up to 90% reductions in energy use. Join us for an in-depth discussion.

2:30pm

Introduction to Deep Energy Savings

*Mandy Metcalf and Matt Berges,
Environmental Health Watch*

3pm
